

For You To Do

- Communicate clearly your requirements
- Provide us with specs, drawings, samples, photos etc.
- Let us know the critical dimensions/specs so that we can prioritize accordingly
- Let us know usage of the product/parts. This affect manufacturing processes and quality checking measures.
- If applicable, please let us know how you check for quality.
- Carefully check for sample qualities before having us do mass production.

Quality Policy

- We take full responsibility for our product quality controll.
- If quality issues are identified, we contact costumer and either replace them or fully return to factory.

We Help You Import From China

MMCIS is a leading professional **import** and purchase **service** company with offices in both Sweden and China.

We have been engaged in the field of importing goods from China for over 10 years and we know all the pitfalls.

Good communication and short decision-making is the key to success in China.

Our **offices** are located in **Yiwu City**, China, where the largest wholesale market for commodities in the world is and **Uppsala**, Sweden. We are **fluent**

in **Chinese, English, Swedish** and **Norwegian**, and can therefore ensure that all your specifications and requirements are met.

Our aim is to make it as **easy** and **effectiv** as possible for you to **manufactor** and **import** products from **China** to **Europe**.

Q: "Can I visit factories that are making our products?"

A: "Yes, we think it's important to have close contact with the manufacturer."

Q: "Can you translate Chinese documets to Swedish for us?"

A: "Yes, we can translate all documents to Swedish, English and Chinese."

OUR SERVICES Europe

Find quality low-cost Chinese factories and follow-up supply management:

1. For products already made in China, we can locate the factories and link you directly with them.
2. If a product is not made in China yet, we can facilitate a Chinese manufacturing transfer.

Purchasing process:

1. Obtain detailed quotes from several factories
2. Sampling Production with the best factory
3. Quality Controll before shipping

China Sourcing:

1. Find low cost suppliers and adapt their abilities to fit your requirements.
2. Develop China based cost models
3. Recommend cost reduction opportunities
4. Analyze plant-level strengths/weaknesses

Logistics:

1. Freight forwarding
2. Expedite custom clearance
3. Shipping consolidation
4. Content inspection and repackaging
